BUST and BODY CARE

Professional Beauty Care

Introduction

Your beauty therapist is a professional who has received thorough training of Genetic methods and products to bring you the very best beauty care and advice.

In order to optimise the results you are expecting, we recommend you make regular visits to the beauty parlour as only your beauty therapist is able to apply a thermal or plant mask during a treatment that enables all the active ingredients of our products to be more rapidly absorbed.

When applied by expert hands the effectiveness of our treatments is multiplied tenfold.

The Bust

What can be more attractive than a perfectly balanced, well-proportioned bust in harmony with the physiology of each woman? All women dream of having a beautiful bust and of keeping it that way for as long as possible.

And it really is possible now !

Well-studied beauty treatments for the BUST, using products (creams, lotions, phials) containing active ingredients that are referenced in the Health Ministries bring results that cannot be contested.

However, to achieve these results it is necessary to know the physiology of the person requiring treatment and to clearly identify the causes of her bust problems.

TIPS:

For optimal effectiveness the bust care products must be applied to the entire surface of the breast and nipple while avoiding moving the breasts, then to the skin above the bust in slow circular movements up to the neck.

BUST LINE

Bust Care

With GERNETIC bust products you will be able to re-balance your bust by giving the proportions appropriate to your particular morphology be it in terms of firmness, increase or decrease in size. To speed up results, ask your beauty therapist for NATUR-DIET BUST dietary supplement.

THE MAIN ACTIVE INGREDIENTS IN OUR BUST CARE PRODUCTS ARE NATURAL EXTRACTS FROM THE PLANT WORLD (Hops, ginseng, witch hazel, etc...) – A balanced cocktail, rich in vitamins, trace elements and amino acids.

SEINO

Tonic Lotion for the Bust

Stimulating - regenerating, it helps speed up the absorption of MACRO 2000 cream thanks to its hyperaemic powers. Can be used for acne due to hormonal imbalance.

It also stimulates collagen and elastin synthesis.

ENDO

Phials for the Bust

Stimulates the metabolism plus collagen and elastin synthesis.

Apply with light strokes over the entire breast, including nipple. Use preferably in the morning.

ENDO SPECIAL

Bust Spray

Thanks to a richer and more concentrated composition than that of ENDO, ENDO SPECIAL treats the most difficult cases, nurtures the bust tissues and provides essential nutrition. It stimulates the metabolism as well as collagen and elastin synthesis. Fights efficiently the effects of ageing.

MACRO 2000

Balancing Cream for the Bust

Firming and re-mineralising, to be used for firming the bust and re-balancing its proportions.

Restructuring of elastic fibres, increase in tone and firmness.

The Body

Genetic Int. Body Care methods and products provide the possibility for real results (rapid and durable), with quite spectacular results from the very first treatment.

Over 30 years of in-depth research has enabled us to distinguish between Cellulite (orange peel effect), and fatty deposits (excessive flabbiness). These two unattractive conditions should not be confused as the internal cause of each is very different and the effects and treatments need to be thoroughly mastered if one is to obtain unbeatable results.

Firmness and accidents to the skin can also be successfully treated.

To speed up results ask your beauty therapist about Natur Diet Food Control, Natur Diet Zen Control and Natur Diet Cellu dietary supplements

Cellulite

A) DEFINITION AND DESCRIPTION

We have ascertained that cellulite is always due to a cluster of old dead cells, attached to tissues, fat and muscle..., unable to be eliminated from the body.

These old cells are badly vascularized and stagnate in the tissues, thus provoking inflammation. In the end they become covered in fibrous tissue which is what gives the "orange peel effect".

The causes of cellulite are numerous and in particular - are mainly hormonal (excess of oestrogen) in women, this in turn explains why the cellulite is stocked in areas aptly called "feminine" (stomach, thighs, hips...). The other causes are varied: bad nutrition (in particular, lack of vitamin E), smoking, alcohol, stress, lack of exercise... all of which are 100% linked to poor circulation.

B) TREATMENT BY ABSORPTION THROUGH THE SKIN

By light massages, drainage massages from the soles of the feet to the waist, the plant and marine extracts are slowly absorbed, providing the essential nutrition linked to the composition of blood cells (amino acids, vitamins, trace elements, proteins...)

By absorption through the skin, one can nourish, balance and provoke better circulation enabling the old dead cells that make up CELLULITE to be "detached" and eliminated from the body.

New generation of Cosmetic Slimming Products

Intelligent Cosmetics for Men and Women.

Women both young and not so young have always been preoccupied by their figure and now men are becoming more and more concerned by their appearance as well.

Dieting (often unbalanced) and weight training (waist, hips and abdomen) are now fashionable to compensate for a sedentary lifestyle and the cumulative effects of ageing.

Hence, our laboratories have developed NEW ACTIVE INGREDIENTS that encourage slimming for both sexes, based on 2 reputed plants:

- Green coffee extract, rich in cafestol and kahweol.
- Yerba Maté extract, rich in methylxanthines.

The works of Nobel Prize winner, Professor J.L. Goldstein, have enabled us to better understand and master the slimming process on the following two levels:

- Blocking the internalisation of the LDL (Low Density Lipoproteins), and the VLDL (Very Low Density Lipoproteins), by adipocytes.
- Stimulating the elimination of the triglycerides contained in the adipocyte.

These ACTIVE PLANT INGREDIENTS, composed of cafestol, caffeine and theobromine, prevent the storage of lipids in the adipocytes, by blocking the synthesis of the LDL and VLDL receptors.

They stimulate lipolysis (+170%) by inhibiting the phosphodiesterase.

Scientifically tested, these technological innovations enable a characteristic advance in the field of cosmetics.

Stretch Marks

STRETCH MARKS are due to EXTERNAL CAUSES and always linked to under-nourished tissues that are poor in collagen and elastin. Several causes can stretch the skin and provoke, in some people, this aspect of space between the tissues that forms a kind of scar which appears dark brown, red or white depending on how long it has been there as well as on the age and texture of the skin.

For the prevention and treatment of stretch marks on the bust, use "SYNCHRO", a soothing and regenerating cream.

For stretch marks on the body, use "IMMUNO + SYNCHRO".

Body Care

LYMPHO

Tonic Lotion for the Body

Lymphatic drainage for the legs, cellulite, toning and firming, it helps provoke better micro-circulation so that other specific products are able to work more effectively.

VEINULO

Phials for the Body

Provides essential nutrition to the walls of the capillaries and veins that are visible in the legs and has a decongesting, softening, revitalising and regenerating action on vascular zones, veins and varicose veins. Anti-inflammatory and draining, it reinforces and restructures the skin's natural moisture barrier.

VEINULO SPECIAL

Body Spray

Thanks to a richer and more concentrated composition than that of VEINULO, it treats the most difficult cases. Antiseptic, anti-inflammatory, healing, soothing, nourishing and softening, it plays a role in making veins and capillaries more supple and revitalised. Helps in the natural renewal of collagen molecules.

VASCO ARTERA

"Orange peel effect" Body Cream

Helps to promote a better circulation which reduces cellulite and water retention and decongests heavy legs. Excellent vector for speeding up tone and firmness.

ADIPO GASTA

Resculpturing Body Cream

Enables a gradual break-down of superficial or excessive fatty clusters so the body is able to regain more harmonious proportions.

PERFECT BODY *Shaping Cream*

One application produces several effects: strong drainage action, eases legs and reduces puffiness, positive results on orange peel effect skin by acting on fatty clusters via physiological equilibrium. It inhibits storage of lipids in the adipocytes.

SOMITO *Firming Body Cream*

For use in all cases of sagging, slacking skin. Has a strong action on muscles and tissues and should be used on any areas requiring firming : thighs - buttocks - stomach - back - arms.

ANTI STRIES *Bust and Body Cream*

Preventing and curative cream for the distension of the skin's tissues. With their exceptional nourishing power, the active principles contained in ANTI STRIES enable a better synthesis of the collagenase, producing enough natural quantities of collagen and elastin to ensure the elasticity and the restructuring of the distended tissues.

MASSAGE OIL

Grape seed oil enriched with lavender and rosemary essential oils has a relaxing and drainage action that decongests, soothes aches and muscular pains, activates circulation and leaves skin soft and supple.

MARINE BODY COMFORT

A fresh gel that is easy to apply helps decongest heavy legs and reduce water retention. It helps to improve circulation and drain clusters of cellulite.

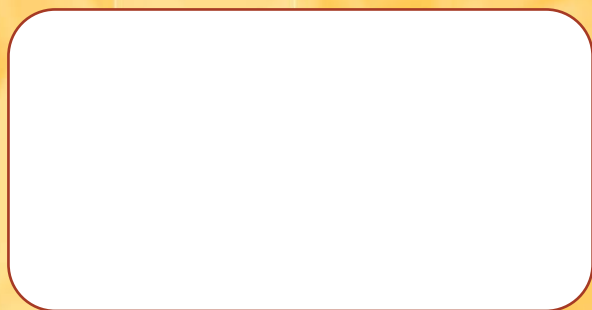

MARINE BODY BEAUTY

A light cream that is quickly absorbed for a toning and firming action. Helps reduce superfluous fatty clusters.
